

The Magnum.

Two steps closer
to perfection.

Magnum means performance.

There are two, new solid body electric basses from Ovation: Magnum 1 and Magnum 2. One has stereo output. The other, a graphic equalizer. Both put the "one bass, one sound" idea to rest. Both are built to perform...

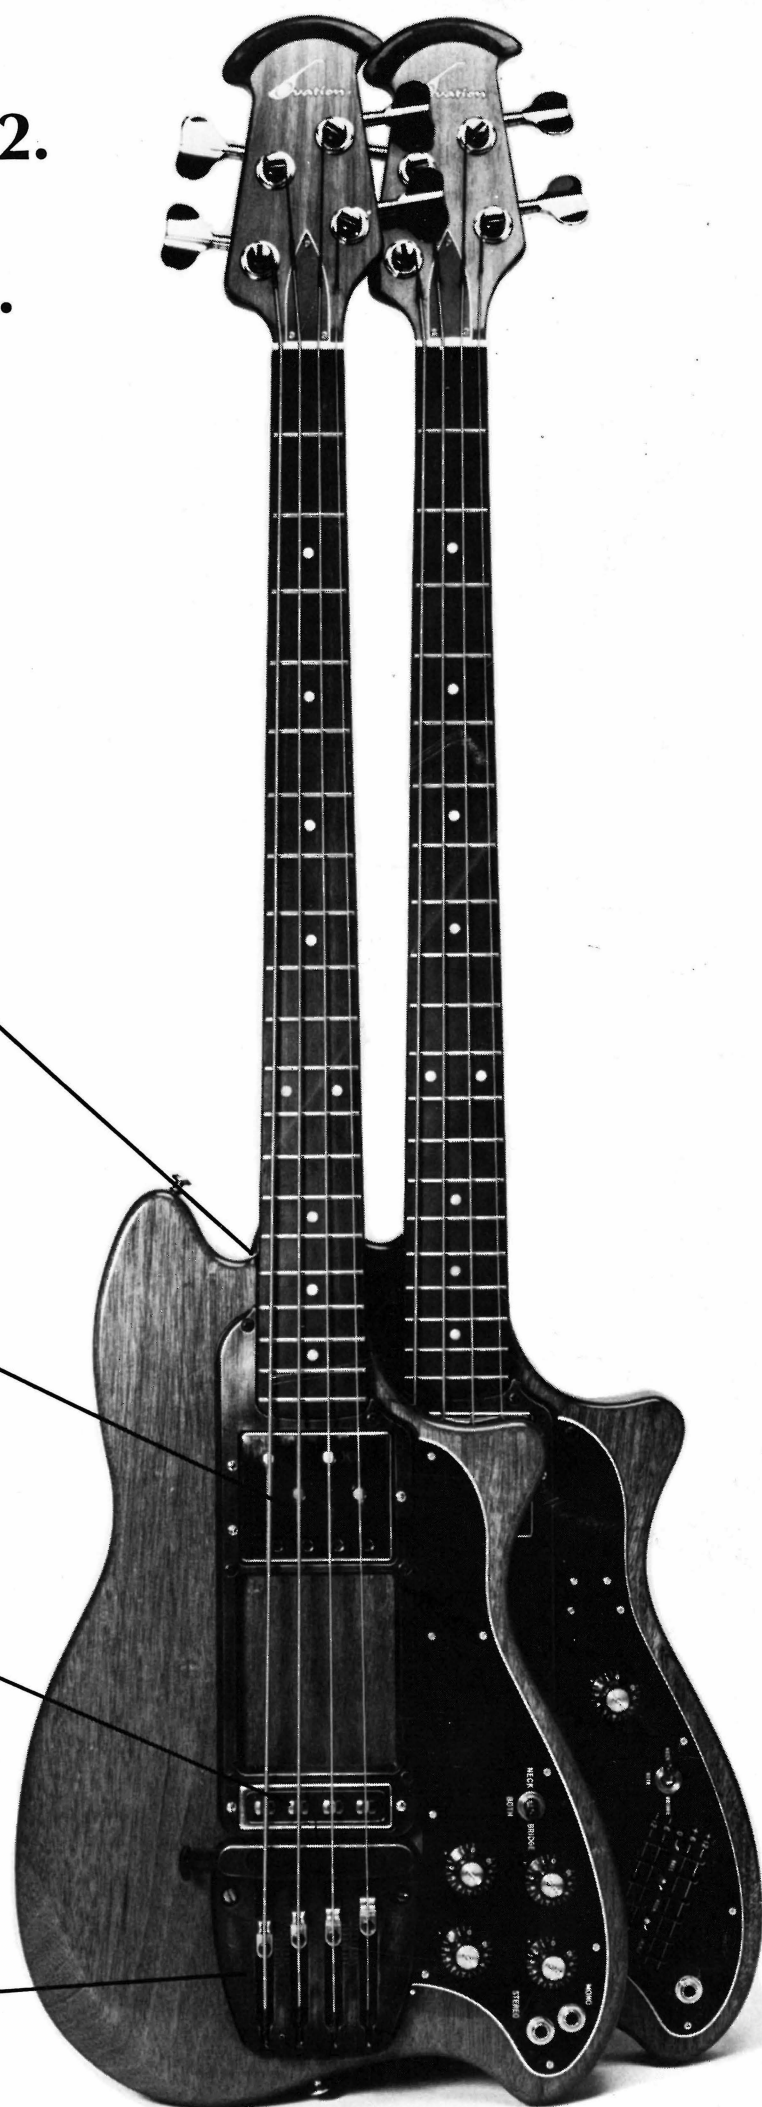

Magnum 1 & 2. The Basses from Ovation.

1. Glued and bolted neck attachment.

2. Magnum neck pickup with individual volume adjustment for each string.

3. Magnum bridge pickup with U-shaped pole pieces for greater sustain, cleaner treble response.

4. Cast aluminum tailpiece, slotted for quick string replacement and calibrated for exact compensation.

- **A clean, bright “piano bass” sound with the sustain you need.**

U-shaped pole pieces in the bridge pickup generate a stronger signal. You hear more of the string's higher overtones and less midrange to muddy the tone.

- **Stereo output on Magnum 1.**

A separate jack for stereo lets you plug Magnum 1 into two amps, or two channels of one amp. Pickup output is split for a wider tonal range. (See figure 1.)

- **A graphic equalizer on Magnum 2.**

Three slide controls adjust bass, midrange (400 Hz), and treble (± 12 db). A built-in preamp gives you volume compensation for all tone changes. (See figure 2.)

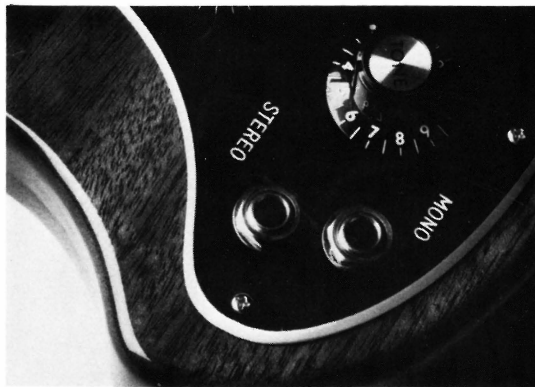

fig. 1.

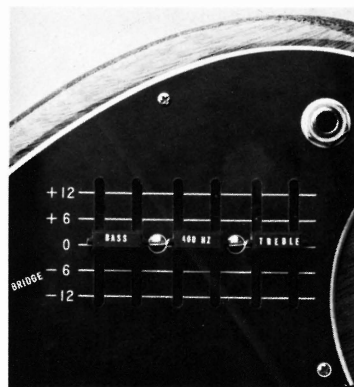

fig. 2.

- **A neck pickup that eliminates string imbalance.**

Four volume potentiometers let you adjust the level of each string individually. You can get the same punch in every range—bass, mid and treble.

- **A neck that stays straight and playable.**

Three strips of a new material called carbon-graphite reinforce the neck. With a steel tension rod, they make it more than twice as strong as wood alone.

- **Accurate intonation.**

A cast aluminum tailpiece with solid brass saddles gives you over an inch of compensation adjustment. Magnum accommodates any kind of bass string. And, intonation is correct all the way to the 20th fret.

- **Other Magnum features:**

A 1-piece, Honduras mahogany body; a lever-action mute; a glued *and* bolted neck mounting for enhanced sustain; chrome-plated tuning hardware with 22:1 ratio; 34" scale length.

Limited Lifetime Warranty

Ovation Instruments, Inc. ("Ovation") limitedly warrants to the original retail purchaser that guitars manufactured by it shall be free from defects in materials and workmanship for the lifetime of the original retail purchaser. This warranty shall not apply to the following components and properties of Ovation's guitars: strings, tuning hardware, worn plating or electric components, or normal fret wear, service parts and accessories including amplifying devices (other than factory-installed devices which shall be subject to their individual warranties, where applicable). Additionally, tone, because it is a subjective matter, is not warranted. The obligation of Ovation hereunder is limited to the repair of such product claimed to be defective (through the use of standard materials and processes in effect at the time of repair) f.o.b. Ovation's place of business provided that: (1) At purchase the Buyer completes and returns the attached warranty card filling out the required information thereon; (2) The Buyer (personally or through his authorized Ovation dealer) either in writing or by telephone explains to the Manager or Assistant Manager of Ovation's Customer Service Department the nature of such defect; (3) At the Buyer's expense, the Buyer returns the product claimed to be defective to Ovation at the address shown above; (4) Ovation shall be satisfied that such defect is not the result of misuse or abuse; and (5) The model number and serial number on both the registration card and the guitar shall not have been altered. Ovation shall perform its warranty obligations as set forth herein free of charge for labor and materials for the first two (2) years after the original retail purchase. Thereafter, Ovation shall be responsible for all materials used in the performance of this warranty and the Buyer shall be responsible for all service and labor charges incurred in such performance at standard Ovation labor rates in effect at that time. This warranty shall not apply to products which shall have been subjected to misuse, negligence, alteration or accident, including exposure to extreme heat, cold, or high or low humidity. Ovation shall not be liable for any property damage or for any consequential damages (including loss of use or profits) nor shall Ovation's liability on any claim for damages arising out of or connected with the manufacture, sale, delivery or use of any goods delivered under this order exceed the purchase price paid therefor. In the event of unexpected loss by fire, theft, or damage of the Buyer's guitar while in Ovation's possession such loss shall not be a liability of Ovation in excess of replacement with a new guitar of the same or most similar available style. Excess value (collector's value) insurance must be carried by the Buyer at Buyer's expense. The same is true with shipping insurance since many carriers place limits on their liability. Any action for breach of this warranty or any other action under this Agreement must be commenced within one (1) year after such cause of action arises.

Warranty

THIS LIMITED WARRANTY IS EXCLUSIVE AND IS MADE IN LIEU OF ALL OTHER WARRANTIES, and all implied warranties, including without limitation any warranty of merchantability or of fitness, are hereby expressly limited in duration to the duration of the limited warranty set forth herein. Some states do not allow limitations on the duration or an implied warranty or the exclusion of limitation of incidental or consequential damages so the above limitations may not apply. This warranty gives you legal rights, and you may also have other legal rights which vary from state to state.
